

Tux Paint

Drawing program for young children

Davis Mac Users Group
Thursday, January 9, 2003

Bill Kendrick <bill@newbreedsoftware.com>
<http://www.newbreedsoftware.com/tuxpaint/>

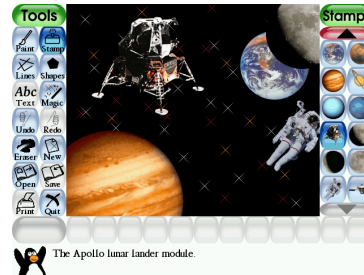

Drawing Tools

- Paint brush
- Rubber Stamps
- Lines
- Shapes
- Text
- Magic Tools (*Special Effects*)
- Eraser
- Multiple Undo/Redo

Easy and fun for kids

- Simple interface
- Helpful cartoon character
- Sound effects
- One-click Save
- Thumbnail-based Open

VERY Easy for kids

- Uppercase-only mode (*for kids who aren't comfortable with lowercase letters*)
- Option to disable the Quit button
- `Save over...?' prompt can be disabled
- Option to disable mouse-wheel support

Safe for Parents

- Access only to Tux Paint files (*no mustaches on your family photos!*)
- Option to disable the Print command
- Fullscreen- and keyboard/mouse `grabbing' options
- Option to disable sound effects

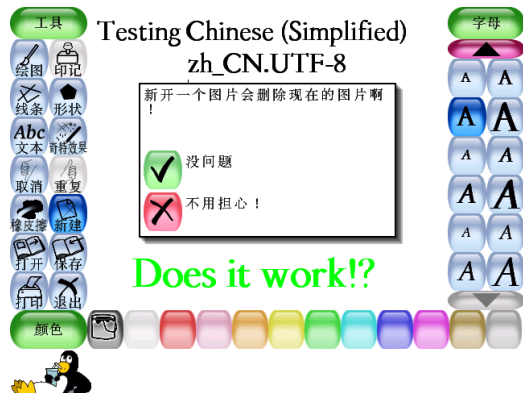

Runs everywhere (almost)

- Windows (95, 98, ME, NT, 2000, XP)
- Apple Mac OS X
- Linux / Unix
- Apple Mac OS Classic (*coming soon!*)
- BeOS (*coming soon!*)

Speaks many languages

- American English
- Brazilian Portuguese
- British English
- Catalan
- Chinese *
- Czech
- Danish
- Dutch
- Finnish
- French
- German
- Greek * (*coming soon*)
- Hindi * (*coming soon*)
- Hungarian
- Icelandic
- Indonesian
- Italian
- Korean *
- Norwegian
- Spanish
- Swedish
- Turkish

* Require additional fonts; also freely available

Freely Available, with Source Code!

- Released as 'Open Source' software
- Licensed under the GNU General Public License ('GPL')
- This means you can download it for free!
- You can install Tux Paint on as many computers as you want
- You can copy Tux Paint and give it to your friends
- You can make CDs with Tux Paint and sell them (*if you include the source code*)
- Other programmers can easily help contribute
- Tux Paint's code can be used as the basis of other Open Source projects
- See <http://www.gnu.org/> and <http://www.opensource.org/>

Press:

Linux Journal magazine

Linux Magazine

Linux-Magazin (*Germany*)

Revista do Linux magazine (*Brazil*)

Linux Magazine (*Japan*)

Usage:

- A number of schools around the world
- Included in the 'GNU Win II' collection of Open Source software for Windows
